

ASSOCIATION TECHNOLOGY Simplified

Members

Better membership relationship management starts here

HOW WE DO IT

At Agilutions, we use our deep knowledge in technology, consulting and analysis to turn great associations into even better ones. That's why associations that are serious about exceeding expectations, automating key tasks and growing their membership community turn to Agilutions. Not only do we develop turnkey technical solutions that enable our clients to make the most of *their* technology, but we also collaborate with our clients to formulate strategies to effectively enhance member relationships.

In addition to the fact that our solutions exceed our customers' expectations, we offer a simple approach that makes the implementation process enjoyable. Yes, we said enjoyable. Our clients tell us the difference lies in our iterative methodology, which keeps our client-partners involved in every step of the process. By adopting an organized and inclusive approach, we can ensure every project stays on track, lives up to our impeccably high standards and meets our clients' objectives.

"Investment Management Consultants Association was searching for the best systems design firm and ended up finding a business partner we could grow with. By utilizing Agilutions, we receive input for both a systems solution and a best-practice business solution, which makes all the difference."

Dede Pahl | Executive Director

INVESTMENT MANAGEMENT CONSULTANTS ASSOCIATION (IMCA)

CERTIFICATION TECHNOLOGY Simplified

Certificants

Discover a more automated certification process

HOW WE DO IT

Since every certification is different, technology needs to be adaptable to a wide range of requirements. That's why when it comes to credentialing, Agilutions is proud to offer a best-in-class solution that centers on both organization accreditation and individual certification. Our expertise sets us apart from the competition because we understand our clients' needs and can solve complex time-consuming challenges with easy and reliable solutions.

Our skilled approach allows credentialing organizations to turn cumbersome manual processes into automated ones. Data is kept in one central place, which makes it easy to access a real-time snapshot of activity. By simply logging in to a customized dashboard, users can better manage, measure and report on every aspect of their certification process. And, since our solution is complete and scalable, it's effortless to keep track of applicants over time and possible to update existing requirements or add new certification steps. This changes the entire way our credentialing-partners approach their certification by reducing the need for data entry, paperwork and phone banks, which frees up resources for other key tasks.

"Agilutions is one of my favorite vendor partners. I consider them a strategic asset to my association. They embrace our objectives as their own and work side-by-side with us to achieve them. They are uncommonly quick at understanding business processes and have the unique ability to persistently and gently persuade end users to accept improvements to business processes and system changes. They don't believe in accepting "but that's the way we've always done it." Their deep knowledge of netFORUM and credentialing has been invaluable to us. On top of it all, they are just great people to work with - they possess excellent communication skills, listen to our needs, are funny and calming, have the highest degree of integrity and are darned nice."

Mike Guerrieri | Information Technology Director | AMERICAN SPEECH-LANGUAGE-HEARING ASSOCIATION (ASHA)

CUSTOMER EXPERIENCE Amplified

Customers

Welcome to a Zen-like technical experience

HOW WE DO IT

Most people wouldn't necessarily put "Zen" and "technical" in the same sentence, unless, of course, they have worked with us. We amplify customer experience through an enlightened approach that centers on simplicity, client know-how and years of experience using eXtreme Programming (XP). Not only do we go the extra mile to make sure that our clients receive complete solutions they can count on for years to come, but we also give them the tools to grow *their* client relationships.

In fact, we attribute our technical expertise, attention to detail and forward-thinking approach to customer satisfaction as the keys to our success. We are proud to say that we have developed a number of long term partnerships with well-known associations and credentialing organizations. In fact, client referrals are one of the most crucial ways we've been able to grow our business.

Contact us today at **303.298.8562** or information@agilutions.com to find out what we can do for your business.

"Agilutions took AAHA to a whole new level. They not only helped with projects such as building our on-line shopping cart, but they taught us along the way so we can be self sufficient. They helped us to gain the knowledge to expand netFORUM in-house and provided the tools we need to continue to build our association."

Denise Greenwell | Senior Manager, Information Technology
AMERICAN ANIMAL HOSPITAL ASSOCIATION (AAHA)
